

## Join Us for Facility Tours

Explore Metro Water Services' history and commitment to delivering safe, clean, and reliable water on facility tours with the Strategic Communications Team! Join us as we examine the intricate processes and technologies employed by our dedicated and talented team members; get to know the day-to-day of the on-site employees who you work with, hire and recruit, and provide support.

This opportunity offers a look at the behind-the-scenes efforts that ensure the delivery of high-quality water to our community. Visiting our facilities gives valuable insights into the system that sustains the well-being of our customers and our organization, such as lab testing, microorganism waste elimination, and UV light sanitation.

Tours are offered monthly at K.R. Harrington, Whites Creek, and Central Biosolids Facility. Don't miss this chance to witness the expertise of our exceptional employees who play an instrumental role in upholding our mission of excellence at Metro Water Services.

To sign up, please email Megan Fuqua ([megan.fuqua@nashville.gov](mailto:megan.fuqua@nashville.gov)).
